Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock market:

Logan & Bryan, New York, say: "The market closed irregular, but on the whole prices are lower than yesterday's final figures. Quite a little strength and some improvement was made early in the ses-sion, with the volume of business quite large. The uncertainty and irregular trend leaves sentiment somewhat mixed. It still looks to us like a trading mar-ket."

It still looks to us like a trading market."

Hutton, New York, says: "The money situation is the key, and until the street is assured that a possibility of higher money no longer exists, stocks will be a sale on rallies. There was some talk'today that the treasury might come to the relief of banks by depositing the customary accounts, a sum of some £9,000,000. There is no doubt that with any further demand for gold from England that she will raise her bank rate again thereby making it necessary for our money rate to advance before being able to attract further any gold to this side." Dick Bros. New York, say: "Market continued strong again this morning, but became dull and quiet on the advance. The closing was heavy, and with most stocks at about the lowest figures of the day. The banks reported heavy losses in cash, otherwise there was not much news."

cash, otherwise there was not much news."
Marshall, Spader & Co., New York, say: "Most indications point to less apprehension in the near future about money rates, which were casier in London today in some degree, though further withdrawals of gold for New York are expected with the possible effect of an advance in the Bank of England rate. The market is in a condition to respond to better sentiment, though no extreme demonstration need be expected for a time."
T. A. McIntyre & Co., New York, say: "Today's events in the stock market prove that our idea of yesterday's rally having been forced principally at the expense of the short interest was the correct one. The best that can be expected is a continuance of a comparatively narrect one. The best that can be expected is a continuance of a comparatively narrow trader's market. Purchases on pronounced weak spots are only advisable in the meantime, and profits should be taken promptly on every rally."

DEARTH OF FISH ON THE MARKET

Dealers Wondering What May Be the Matter With the Fishermen.

VEGETABLES AND FRUITS DULLER THAN USUAL

All Grapes, Except the Concord, Are Continuing to Fall in Price.

The dullest day yet is the verdict of the wholesale and retail dealers. The fish market yesterday looked like it might have been sold out for good. There is an unaccountable dearth of fish, which is causing dealers and customers much annoyance. The dealers are not even sure that Friday will have its fish. The market has not been so low in this par-

Grapes of all kinds except the Concord are continuing to be cheaper. The Muscatel and the Tokay grapes are now 50 cents a basket, and the Black Prince are 50 cents. Concord will drop soon.

Traders Take Advantage of Bulge in Wheat Market and Close Is Weak.

CHICAGO, Sept. 13.-Relief in a heavy movement of wheat impending in the Northwest produced weakness in the wheat market today. At the close the December delivery was firm.

The origin of the easier undertone was a continuation of clear weather in the Northwest. It was inferred that as a result arrivals of new wheat from the farms would be materially increased. Notwithstanding, however, that the day's receipts of wheat at the Northwestern grain centers were more than double the receipts of the corresponding day last year, the demand from miliers today was so urgent that all of today's arrivals was readily disposed of.
